

Energy Consumption Analysis

As your dedicated energy efficiency consultant, I have gathered the following data points for your review. Please let me know if you require any additional information or assistance.

1. Data Validation & Summary of Findings

All essential data points for the "Air Conditioner" have been successfully validated.

Appliance	Power Rating (W)	Daily Use Hours
Air Conditioner	1200.00	0.00

2. Energy Hogs Identification

Based on the provided data, the "Air Conditioner" is identified as an energy hog, consuming both 0 kWh and 0 PHP. Therefore, no applications were found.

both 0 kWh and 0 PHP. Therefore, no applica

3. Recommendations for Energy Efficiency

Since the provided data indicates 0 daily usage, there are no recommendations to provide quantifiable savings in kWh and PHP.

Important Note from Lektric:

It appears that the "Daily Use Hours" for your household is set to 24 hours. This may not provide the actual average daily use hours. Please consider setting this value to 16 hours to provide tailored, quantifiable recommendations.
